 - Economics and Management,

Organisation

- Vice rectorates
 - **The Vice-Rectorate of Higher Education and Diplomas.**
 - **The Vice Rectorate of Postgraduate, Scientific Research and External Relations.**
 - **Vice Rectorate of Development and Prospectivity**

Organisation

- Startup Incubator,
- Quality Assurance Cell
- Intensive Languages Center
- Entrepreneurship

Internationalisation Strategy

Internationalisation Strategy

- Our University promotes the culture of innovation, and participates in strengthening the national and international scientific potential,

Internationalisation Strategy

- It also participates within the international scientific and cultural community for the exchange and spreading of knowledge.

Internationalisation strategy

- Brief needs analysis

1. Increase the visibility of the university internationally,
2. Adapt the university to the new changes and challenges of the world,
3. Allow students to gain hands-on experience and promote learning international.

Internationalisation Strategy

1. Organize field training internationally for students, researchers and staff. In this case all participants will have exactly the same chance, without distinguishing between gender, physical or economic capacity.
2. The university presents facilitations to participants with reduced mobility and financial aid to participants with economic problems,

Internationalisation Strategy

The specific objectives:

- Multiply our exchanges by integrating, as much as possible, networks of institutions and networks of researchers, to ensure visibility of both institutions.

Internationalisation Strategy

- **Allow** the community of teachers, researchers and students to integrate internationally, exchange networks and mobility projects by allocating a sufficient operational budget to support recruitment and enrollment activities foreigner.
- **Develop** our capacity to mobilize international funding.

Internationalisation Strategy

- Why is it important to participate in Erasmus+:
- Gain valuable skills and international experience to help participants (students, researchers and administrative staff) grow personally, professionally and academically.
- We had the chance to begin with WSB university!

Internationalisation Strategy

- Modernize and digitalize education, training and youth work across Europe and all around the world.
- **Erasmus** mobility assignments often last no more than a few days. Nevertheless, mobile participants report a positive and sustainable impact on their careers.

Internationalisation Strategy

- First experience with ERAMUS, but not with other programs:
- **Scholarships**
 - Residential training: **50 teachers and researchers and 30 students**
 - Short-term training : **200 teachers and researchers**

Internationalisation Strategy

- First experience with ERAMUS, but not with other programs:
- **Scholarship destinations**
 - Turkey, Hungary, Japan, France, China, Romania, UK, Ireland, Malizia, and now to Poland!
 - Portugal, Spain, Estonia, Latvia,

Internationalisation Strategy

- International Events:
 - International Conferences: 30
 - International Journals:
 - Mathematics and computer science
 - Economics
 - Biology
 - literary

Internationalisation Strategy

- Futur Projects:
 - Joint masters,
 - Doctoral co-supervision,
 - Co-Review Committees for international journals and conferences,
 - Joint creation of books,
 - Other..
